Mr. Wade Diekman
Blue Water Marine Construction
3558 Southeast Dixie Highway
Stuart, Florida 34997

Dear Mr. Diekman:

This is in reference to your request for a permit to perform work in or affecting navigable waters of the United States. Upon recommendation of the Chief of Engineers, pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), you are authorized:

to maintenance dredge approximately 4400 cubic yards of material within existing boat channels to a depth of minus five feet mean low water;

all dredged material will be deposited on a self-contained, upland spoil site;

the project is located at Nosaw Harbor Channel, North Shore Harbor Channel, Citadel Bay Channel, Half Mile Channel, and Santa Lucia Cove Channel, at Sections 30 and 31, Township 37 South, Range 41 East, Stuart, Martin County, Florida;

to be completed in accordance with the enclosed revised drawings and conditions which are incorporated in, and made a part of, the permit. We have no evidence that a State permit has been issued for the work, and no work may begin until their requirements are met.

Enclosed is a Notice of Authorization which should be displayed at the construction site. When you begin work, you must notify the District Engineer's representative, at the appropriate Area Office as shown on the enclosed map, of;

- a. The date of commencement of work;
- b. The dates of work suspensions and resumptions if work is suspended over a week and;

c. The date of final completion.

If the work authorized is not completed on or before **July 31, 2000**, this authorization, if not previously revoked or specifically extended, shall cease and be null and void.

BY AUTHORITY OF THE SECRETARY OF THE ARMY:

Terry L. Rice
Colonel, U.S. Army
District Engineer

Mr. David Ferrell
Fish and Wildlife Service
Post Office Box 2676
Vero Beach, Florida 32961-2676

Dear Mr. Ferrell:

Blue Water Marine Construction has applied for a Department of the Army permit on behalf of their client, North River Shores Property Owners Association, Inc. to conduct maintenance dredging in existing boat channels at Nosaw Harbor Channel, North Shore Harbor Channel, Citadel Bay Channel, Half Mile Channel, and Santa Lucia Cove Channel. It is proposed that approximately 4400 cubic yards of sediment will be dredged to a minus five feet mean low water, and that all dredged material will be deposited on a self-contained, upland spoil site. The proposed activity is located at Sections 30 and 31, Township 37 South, Range 41 East, Stuart, Martin County, Florida.

The proposed work, as shown on the enclosed drawings, is considered to be minor work, and we plan to issue a letter-type permit without a public notice two weeks from the date of this letter.

If you have any objections to the issuance of this permit, please contact Ms. Tori K. Agramonte at the Vero Beach address or by telephone (407) 567-1681.

Sincerely,

Tori K. Agramonte
Biologist

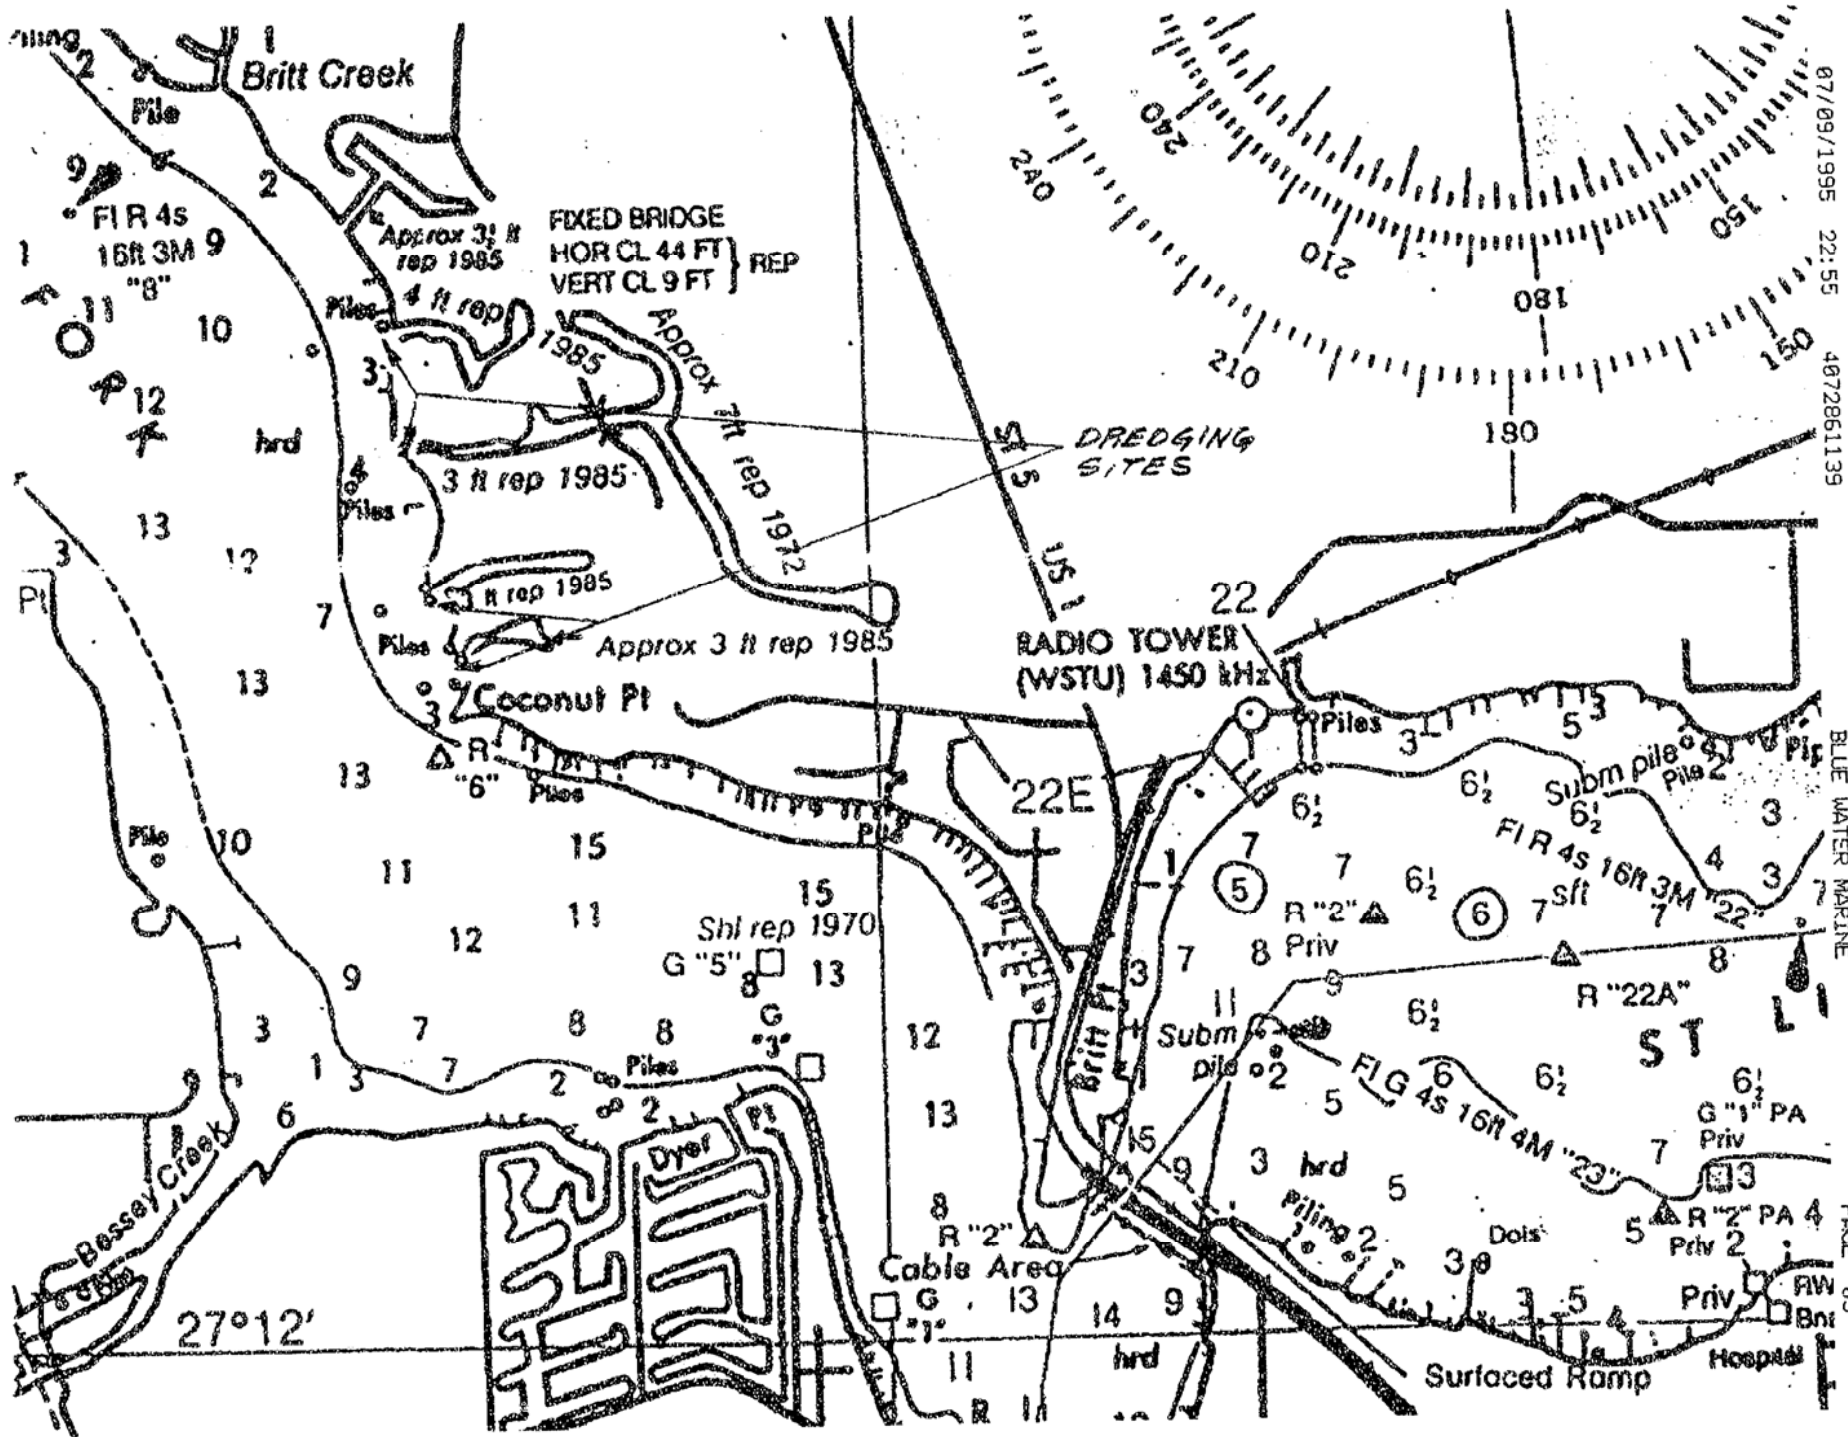

Enclosure

IDENTICAL LETTER SENT TO:

Mr. Thomas Welborn, EPA, Atlanta, Georgia
Mr. Andreas Mager, NMFS, St. Petersburg, Florida
